WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

General Information

General Information

The following information is the main Rules for Rimfire and Air Rifle Benchrest Competitions developed to suit international shooting. The following Rules can be used for Local, National and Continental Championships by member associations. These rules will be used for all World and European Rimfire and Air Rifle Benchrest Championships from 2013 onwards and **regional/ continental matches held under the banner of the WRABF/ ERABSF** – as 'local rules'. Targets used in all competitions will be the Official World and European Rimfire and Air Rifle Benchrest Targets as supplied as a master for printing on A3 sheet (here by referred to as WRABF and ERABSF targets)(See APPENDIX F for details). This consists of 25 scoring targets. English will be the official language, both aurally and in writing, at the shooting ranges during championship.

Affiliation

The World Rimfire and Air Rifle Benchrest Federation (WRABF) and European Rimfire and Air Rifle Benchrest Shooting Federation (ERABSF) cover the majority of Rimfire and Air Rifle competitions at 25 metres and 50 metres. Affiliation to the WRABF and ERABSF brings national Rimfire and Air Rifle benchrest shooting organisations under the same main rules of shooting set out below, with specific adaptation to suit other forms of rimfire benchrest. These adaptations may cover distance, classes and targets all to suit other world and continental rimfire benchrest shooting and club facilities.

Annual WRABF membership costs for each country is set at \$50 US. This is to be paid to the treasurer at the beginning of each year starting in 2014.

Annual ERABSF membership costs for each country is set at €40. This is to be paid to the treasurer at the beginning of each year starting in 2014.

Eligibility of Venue

The shooting venue where the championship is to be held must be approved and Insured, hold a current licence for the use of the firearms being used and abide by the Firearms Licensing Regulations of that country. It will be the responsibility of the host association / organisers to ensure that the range and facilities are of a high standard suitable for the conduct of the Championship. The Host will also need to organise volunteers to assist in running the event.

Acceptance of terms and conditions

By entering the world championship individuals, teams and national associations/ federations are officially accepting the rules stated within this document. This relates to all aspects of the championship including equipment and behaviour. The disqualification rules outlined within this document are very important to consider and it is the responsibility of all individuals, teams and national associations/ federations to make themselves aware of these facts. Where rules are broken or issues raised, a normal protest can take place during the match by match officials and/ or the protest committee. If rules have been explicitly broken and this is discovered after the championship, than an Emergency General Meeting of international delegates will take place to consider the facts/ evidence and come to a decision. If upheld, individuals and/ or teams can be disqualified or have scores removed in the same way the protest system works. (***This would be an exceptional circumstance***).

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

SECTION A Administration

A.1 Authority:

The World, World Cup, European and regional/ continental Rimfire and Air Rifle Benchrest Shooting Championships are conducted on the authority of the World Rimfire and Air Rifle Benchrest Federation (known as the WRABF) and the European Rimfire and Air Rifle Benchrest Shooting Federation (known as the ERABSF). This has been approved by the Delegates Committee.

A.2 Recognition of Member Countries:

There is no restriction on the number of countries that may join the World/ European Rimfire and Air Rifle Benchrest Federation, subject to them meeting the admission criteria established within these rules, fulfilling financial obligations and meeting the appropriate standards of behaviour and sportsmanship.

A country may be expelled and membership cancelled by the delegates attending a meeting duly called and constituted by these rules. Such expulsion will be by a 2/3rd majority ballot of those country delegates present.

A.3 Recognised Body:

It is for each member country, to establish the body within its jurisdiction that will be recognised for participation at any rimfire championship conducted under the auspices of the World/ European Rimfire and Air Rifle Benchrest Federation. However, only one body per country can be represented at the World/ European Rimfire and Air Rifle Benchrest Federation Delegates Meetings per A4. The body representing each country must be a member of the World/ European Rimfire and Air Rifle Benchrest Federation. Only one member federation/ association representing rimfire and/ or air rifle benchrest from each country is allowed to be a member of the World/ European Rimfire and Air Rifle Benchrest Federation.

A.4 Types of Membership

A.4.1 Full Membership

Each country accepted for membership is entitled to appoint a representative to care for their interests and attend any meetings of the WRABF/ ERABSF Delegates Committee.

A.4.2 Other Membership

Each country accepted for membership under conditions set by the executive committee, as per the constitution, is entitled to appoint a representative to care for their interests and attend any meetings of the WRABF/ ERABSF Delegates Committee.

A.5 Multiple Representations:

Where more than one organisation pursues the interests of Rimfire Benchrest Shooting within a particular country, it is for that country to determine representation. However the World/ European Rimfire and Air Rifle Benchrest Federation Advisory Committee will only recognise one such body in any one country. Where an Association / Federation accept such responsibility, it is required to ensure all competitors from that country who wish to represent their country, are provided with the opportunity to qualify for such teams.

A.6 International Affiliation:

It is expected that any country / association recognition, should be capable of/or recognised by the controlling body of sports shooting in that country, to ensure full international status can be conveyed on the countries representatives.

A.7 Advisory Committee Meetings:

An Advisory Committee Meeting will be held at each World/ European Rimfire and Air Rifle Championship to discuss matter relative to the conduct of the Rimfire and Air Rifle Championship.

The Advisory Committee meeting will be conducted by the Chairman/ President of the World/ European Rimfire and Air Rifle Benchrest Federation or his nominee if unavailable to attend. Representation will be by a Delegate from each approved country who may be accompanied by an official observer. Each delegate present at the meeting will hold one vote. The Chairman/ President may hold his countries vote or a casting vote, but not both.

A.8 Membership Fees:

Member countries will be responsible for the payment of any membership fees or levies determined from time to time by the World/ European Rimfire and Air Rifle Benchrest Federation Delegates Meeting. Failure to meet deadlines set for the payment of such fees will result in the non-acceptance of shooters from that country in any events conducted by the World Rimfire and Air Rifle Benchrest Federation.

Annual WRABF membership costs for each country is set at \$50 US. This is to be paid to the treasurer at the beginning of each year starting in 2012.

Annual ERABSF membership costs for each country is set at €40. This is to be paid to the treasurer at the beginning of each year starting in 2013.

A.9 Conduct of Events:

A World Rimfire Championship shall be conducted every four years. A World Cup will also be held every four years (at the same time and venue as the European Championship), (two years after and two years before) each World Championship. All events at such Championships will be conducted in accordance with these Rules.

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

Should the host country traditionally conduct events in metric **equivalences**, same will be allowed, however all events for that Championship will be conducted metric **values**.

A.10 Changes to Rules to be used at World/ European Rimfire Championship:

Should changes be required to these rules, these should be advised to the Executive Committee members at least one year prior to competition, and confirmation of such changes approved by the next Executive meeting. Should no such changes be advised, then the competition will proceed on the basis of the published information. A temporary change for a specific Championship can be approved by the President or nominee, in consultation with the Championship Organising Committee, subject to all competing countries approving in writing that such change have their agreement.

A.11 New Competition Events:

These Rules contain all events that are currently approved by the Delegates Committee for competition. Should a member wish to provide an alternative competition or include an additional event on the programme, such detail must be submitted to the Executive Committee two years prior to competition. Such application must be accompanied by the Rules of Competition under which the event will be conducted and confirmation that all administrative matters (medals, teams etc) as provided in these Rules will prevail.

A.12 Competitor Accreditation:

Only competitors nominated by their affiliated country/association who have met their financial obligations and who hold that countries citizenship or residency qualification will be accepted. In the event of doubt, the shooters primary place of residency will determine eligibility, possibly through **verification of the competitor's passport**.

Where a competitor has previously competed for another country, that shooter cannot compete for a new country without a formal clearance from the originating country and a stand-down period of two years since the date of last competing at a World/ European Rimfire and Air Rifle Benchrest Federation sanctioned event.

A.13 Territory or Protectorate:

The recognised National Shooting Association of such territories or protectorates may seek Affiliate membership of WRABF/ ERABSF. For entry to be accepted into a championship, all competitors must have been resident in that territory or protectorate for a minimum of two years.

A.14 Minimum Number of Individual Competitors:

For a World/ European Rimfire and Air rifle Championship to be conducted there must be thirty competitors representing a minimum of five countries. **(Levels of junior representation will be set by the WRABF/ ERABSF executive committees with the expectation that a minimum of one place will be allocated to each country for a junior representative).**

The minimum number of competitors from each country shall be one competitor.

A.15 Maximum Number of Individual Competitors:

Each participating country may enter an open amount of competitors in each event of the championship – depending on how many places their country has been allocated by the Match Director/ Organising Committee. This is dependant of the number of countries attending the championship. **This can include juniors (who must be up to 18 years of age in the current year) who will be allocated places by the Executive Committee working with the Match Director/ Organising Committee. Juniors will take part of the in the main championship**

Extra or spare places that cannot be shared equally will be allocated to countries based on an average score selection system to ensure the best shooters attend the championship.

A.16 Team Competition - Minimum Number of Teams:

There must be two participating countries for team awards to take place. However there must be three teams available from those two countries so 1st, 2nd and 3rd place can be competed for.

A.17 Size of Teams:

Each country can enter up to three teams of three shooters in each event/ class depending on a countries place allocation (of which team members can be juniors). The team of shooters names to be registered as stated above under Registration. Up to three teams from each country can enter each class or match – depending on what places countries have been allocated. Scoring will be an aggregate of scores achieved as individuals, amassed as the registered team of three, max score 2250 with 225 X's. Changes to teams must be made 8.30 am on the day of the match.

A.18 Reserves:

It is recognised that countries may wish to have reserves available in the event of difficulties within a *team where there is a team award*. Reserves will be able to shoot during official and unofficial practice days, but will not be permitted to participate as part of a team unless they replace a team member officially. (All reserves can shoot as individuals within a match/ championship **depending that they are within the limits of a countries place allocation**). Reserves will not be included in the awards ceremony for team events unless they have replaced a team member and shot for the team. If replaced, the original team member replaced can no longer be included in the awards ceremony for that team.

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

A.19 Use of Reserves:

Changes to teams must be made before matches commence by 8.30 am on the morning of the scheduled start of the first match.

A.20 Teams Competition participants:

For a Team score to be recorded, all team members must complete the Benchrest for Score competition. **Teams & names must be listed before the events; these should also be clearly posted at the event, with any changes notified in writing before the match begins.**

A.21 World/ European Championship Records:

World/ European Rimfire and Air Rifle Championship records are established at Championship events and are recorded on the World/ European Federation websites respectively.

A.21.a Un-confirmed Records:

The results as published at each championship can be used to indicate that an unconfirmed new World Rimfire and Air Rifle Championship Record have been established.

A.21.b Confirmed Record:

The Executive Committee shall appoint a Technical Group for the final scoring/ confirmation of proposed new records. Such group are able to meet in person or by correspondence. All targets that constitute the record shall be made available to the Technical Group by the shooters Team Leader via the World/ European Rimfire and Air Rifle Benchrest Federation President or nominee, accompanied by appropriate application form.

It will be for the President to announce any new records so obtained. There shall be no appeal rights available as a result of Technical Group or the President's deliberations in this matter. Records established will be recorded on the WRABF/ ERABSF website for future reference and scoring. New records will be announced via the President via the official WRABF/ ERABSF website.

A.21.c Recording of Records:

Score Records: Recorded as shot. (In Metric)

SECTION B Rules of Competition

B.1 DEFINITIONS

B.2 Championship:

The *Championship* shall be defined as the conduct of the total tournament.

B.3 Event:

The *Event* will be those events separately listed in Section D.

B.4 Aggregate:

An Aggregate will be the total score of a day's matches or all matches in one class, the aggregate being the final score. 25 records shots at 25 metres or 50 metres with a time limit for matches of maximum 20 minutes outdoor. Each class will consist of a three targets to be shot in the same day with bench rotation in force. A competitor can compete only one time in each Class/Distance at any Championship. **Separate aggregate for air rifle & rimfire events will be recorded.**

B.5 Match:

A *Match* will be single event (one target) in a Championship.

B.6 Rifle Specifications

.22 Rimfire - Rifles Chambered for Short, Long, or Long Rifle.

Air Rifle - Rifles Chambered for .177, .20 or .22 and of power / velocity as stated in the Class designation section.

The use of electronic equipment in all forms is strictly prohibited on and in all rifle classes, except for electronic time keepers. However, these must be mute so there will be no sound - sportsmanship rules apply.

Rimfire:

(a) International Sporter - is any Sporter having only manually and mechanically operated firing mechanism, max weight not more than 8 1/2 pounds (3.855 Kg) inclusive of scope. Additional barrel weights, harmonic tuners or bullet stabilisers, barrel attachments (vibration devices) are NOT permitted. Any scope may be used with max magnification of 6.5X, however where variable power scopes are used, they will have to be taped in position to a magnification of no more than 6.5X, by referee, for the duration of the match. The barrel/ action can be bedded and have the trigger reworked (or replaced). The barrel profile must be a fixed piece of metal, however formed, with no moveable attachments except for the action nut to secure the barrel to the action. (Original front sights may be left in place but not added to or changed in any way) Stock or stocks that meet 'Stock Clarification' rules may be used (see APPENDIX F). Return to battery shall NOT be permitted. No electronic or mechanically assisted triggers allowed.

(b) Light Varmint .22 Rimfire Rifle - is any rifle having only manually and mechanically operated firing mechanism, weighing not more than 10 1/2 pounds (4.762 kg) inclusive of sight. Any modification may be made to the rifle and any scope may be used. Factory stock or stocks that meet

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

'Stock Clarification' rules may be used (**see APPENDIX F**). Return to battery shall NOT be permitted. Barrel weights, harmonic tuners or bullet stabilisers are permitted but will be included in the overall weight of gun. No electronic or mechanically assisted triggers allowed. Stock tape is permitted.

(c) Heavy Varmint .22 Rimfire Rifle - is any rifle having only manually and mechanically operated firing mechanism and a weight restriction of 15 lbs is set (**6.803kg**) (including attachments – scopes, muzzle devices, etc). Any modification may be made to the rifle and any scope magnification may be used. Factory stock or stocks that meet 'Stock Clarification' rules may be used (**see APPENDIX F**). Return to battery shall NOT be permitted. Barrel weights, harmonic or bullet stabilisers tuners are permitted. No electronic or mechanically assisted triggers allowed. Stock tape is permitted. Rail guns will not be allowed.

Air Rifle:

(a) Light Varmint Air Rifle Class - is any rifle having only manually and mechanically operated firing mechanism, weighing not more than 10 1/2 pounds (4.762 kg) inclusive of sight. Factory stock or stocks that meet 'Stock Clarification' rules may be used (**see APPENDIX F**). The action can be either spring or pneumatic; air regulators, barrel weights, harmonic tuners or bullet stabilisers are permitted but will be included in the overall weight of gun. Air regulators can be used as long as it is integral within the air rifle. The air cylinder can be changed as long as it is provided by the Manufacturer as an option/spare to that model. Any magnification scope may be used. The barrel/ action can be bedded and have the trigger reworked (or replaced). Return to battery shall NOT be permitted. Power to be restricted to 16.27 Joules or 12 ft lbs maximum. Shooting Distance 25m. (**0.177, 0.2 and 0.22 scores will be plugged by using a 0.22 calibre gauge**).

(b) Heavy Varmint Air Rifle - is any rifle having only manually and mechanically operated firing mechanism, a weight restriction of 15 lbs is set (**6.803kg**) (including attachments – scopes, muzzle devices, etc). Factory stock or stocks that meet 'Stock Clarification' rules may be used (**see APPENDIX F**). Any manual modification may be made to the rifle and any magnification scope may be used. Air regulators can be used as long as it is integral within the air rifle. Return to battery shall NOT be permitted. Muzzle brakes, muzzle flips, barrel weights or Harmonic Tuners are permitted. There is no restriction on cylinder size or capacity as long as 27.12 Joules or 20 ft lbs maximum power is retained and it is integral within the rifle. (Separate Air Cylinders are not allowed, the cylinder must be part of the rifle and the overall weight). Shooting Distance 25m. (**0.177, 0.2 and 0.22 scores will be plugged by using a 0.22 calibre gauge**).

B.7 Ammunition

Rimfire Ammunition must be a lead projectile in .22 Target Rimfire short, long, or long rifle calibres Air Rifle ammunition must be a lead pellet in calibre .177 .20 or .22
Competitors using hand loaded ammunition and /or ammunition produced with jacketed bullet, or ammunition not available from regular outlets will be disqualified.

B.8 Rests:

A front rest shall only support the front portion of the rifle. The rear rest shall only support the rear portion of the rifle. Neither rest may be attached to the bench, the rifle or each other i.e.: Both parts shall be moveable independently of each other.

B. 8.1 Front Rest:

Generally the front rest or pedestal does not have restrictions in terms of weight, material and design for these devices. (**See APPENDIX G**) The front rest must incorporate a pliable bag containing sand. The front portion of the rifle shall contact no portion of the rest (other than a stop at the front of the rest that can be used to locate the distance that the rifle is moved towards the target) other than the bag containing the sand. The bottom of the fore end of the stock must form a 100% contact with the top of the sand bag. The rest can incorporate vertical and horizontal adjustments, with any appropriate mechanism used to achieve this.

B.8.2 Rear Rest:

To be a bag or series of bags containing sand. The rear bag can incorporate a vertical spacer (donut) as long as it does not contain horizontal or vertical adjustments. The vertical spacer shall not contain any protrusions which can be inserted into the bench top or the sand bag. The rear bag/s shall not be contained in any way.

B.9 Sand Bag:

Sand bags must be made of leather and/or cloth (i.e. Condura) which are filled with sand, pliable and this material will be a maximum of 3mm or 0.12 inches in thickness across its general surface, the base only can be thicker for stability. Thickness can be tested at the seams of the bag. **Solid leather, plastic or wooden bags covered in leather / material is not permitted**
Anti slip surfaces on the bags may be utilised. Talc or non slip compounds/ tapes can be used to aid tracking of the rifle.

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

B.10 Restraint of Rifles:

When rifle is raised straight up, the front and / or rear rest must not rise up with rifle. If the front and/ or rear rest raises up with rifle, the front and / or rear rest must be weighed with rifle to determine eligibility. The Rifle can also be slid back and forward to determine if it's being clamped in the rest. Front and/ or rear rifle rest cannot be used to restrain recoil of rifle. In general none of the competitor's equipment may be attached to the bench. Tape on the sandbag is legal.

B.11 Guiding means:

Any device, addition, contour or dimension on a rifle, designed to co-act with any equipment to guide its return to the firing position, without the necessity to re-aim the rifle optically for each shot shall be deemed illegal.

B.12 Firing Line:

The firing line shall preferably be coincident with the forward edge of the bench. If not, the line must be clearly marked on the bench.

B.13 Bench:

A bench shall be a rigidly constructed table at which a shooter may sit. The shooter should be able to adjust personal height via the seat or stool which should be adjustable. Benches should be constructed to allow firing by either right or left handed competitors.

During a match competitors or team officials cannot occupy any bench if they are not competing. There will be a designated line that non shooting competitors or spectators shall not cross.

B.14 Position on the bench:

The rifle shall be so placed that the muzzle extends towards the firing line at the front of the bench and the entire receiver of the rifle is behind the firing line.

B.15 Unused Benches:

No competitor or Team Official shall occupy any bench in any match in which they personally are not competing.

Bench Height:

B.16 1. Target height should be higher than bench height and will be considered when application is made for a World/ European Championship venue.

2. In cases where this is not possible due to range design or contours an application for a deviation must be made to the governing body at least one year in advance of the competition date. This application must be supported by exact measurements of bench height and target height from the same horizontal line. Approval will not be unreasonably withheld.

SECTION C Conduct of Championships

C.1 Targets:

Targets to be used in the Championship, shall be the Official World Rimfire and Air Rifle Benchrest Federation Target for Score. Should a local print be used, this will require prior approval from the Officials of the Federation. **Penalties for costs incurred - for shooting a target frame penalty of \$20/€20. For shooting the logo or main scoring boxes \$5/€5.**

C.2 Official Set of Targets:

One target per match shall be provided per competitor, these to be clearly marked with a "Competitor Number".

C.3 Target Dislodged:

Should a Target be dislodged during a match, the match will continue uninterrupted, **unless the target could be lost through prevailing weather conditions!** At the completion of the match, the Range Officer will assess and award extra time to the competitor to enable the match to be completed prior to proceeding with further competition.

C.4 Lost Targets:

If a target is lost (the fault of the range or weather) and the shooter has all other completed targets, the score for the lost target will be the average of the best and worst of those remaining targets. It is the responsibility of the Target Staff to ensure adequate protection of the targets against weather etc by stapling if necessary.

C.5 Posting of Targets:

All completed targets are to be posted in a common area (Wailing Wall) and displayed for all competitors to view. No competitor shall remove from the display area, any targets until the aggregate for that day has been completed, and the protest time for that aggregate has expired, as this negates any protest rights. (see C16) Should a Team or individual wish to lodge a protest in regard to target marking etc, refer Section E.9 or 10 Target Re-measurement Procedures.

Should an issue arise in regard to Aggregates, the Protest Committee may require the targets to be produced. However it should be noted that re-marking of targets cannot be undertaken after expiration of the protest time. **Where targets have been plugged and indicated with the letter 'P' they cannot be replugged – In Exceptional circumstances due to a protest the PROTEST COMMITTEE may, at their discretion, use a EAGLE EYE system to determine the result. This is**

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

not an automatic right and is at the discretion of the PROTEST COMMITTEE to test and alter a plugged score)

Storage of shot targets will be assured by the Match/ Championship Manager. If a competitor is disqualified for any reason, such as an equipment violation, the score will be reported as "DQ". The Match Director will report the reason for the DQ in the match results. If a competitor does not finish their target in the allotted amount of time, the score will be reported as "DNF".

C.6 Removal of Targets:

Early removal of targets by a competitor prior to the expiry of the notified protest time for each aggregate automatically negates all protest rights and could lead to disqualification. The Organising Committee shall provide adequate storage for targets during a championship for those competitors who do not wish to remove their targets until completion of the Championship.

C.7 Target marking facilities:

The availability of a separate target marking facility is necessary, with restricted access to competitors and the public. All targets marking should be conducted by two delegated Technical Officials, one to undertake primary scoring using approved equipment, the other to act as check scorer and recorder. Target score to be displayed on the face of the target.

C.8 Target Marking Procedures:

8a Best Edge:

Best edge scoring will be used in the scoring of targets. (If the hole touches the border of the next highest ring, the higher score will be awarded). A bullet hole touching the inner ring (X) will be awarded an X score. (25 metre target 10 ring to be obliterated to score and X count). The score, in the form of minus ex 10 or points to be taken off the total, is to be written in the box provided. A shot in the target box but missing the largest ring will be scored as four (4) points. All shots that are close will be plugged by the scorer. Tears or distortions on the target will not be counted. Perfect score: 250 and 25X's.

8b Scoring box.

All shots that touch or enter the scoring / record diagram box will be counted and awarded four (4).

8c Scoring Plugs

All shots which cannot be scored by visual scoring will be checked using a certified .22 plug for rimfire and air rifle - plug and marked on the target with a "P" to so indicate. **A Target cannot be re-plugged as part of score query; see C5**

Plugs for both rimfire and air rifle will be .22 calibres. In reference to air rifle so that smaller calibres are not disadvantaged by larger calibres being used.

8d Multiple shots on Targets: Should multiple shots appear in a scoring box, only the lowest score will be counted and **will be penalized** by subtracting 1 point as a penalty.

8e Shots between target blocks:

Should a shot appear between target blocks, the shot will be plugged and assessed for within which target block appears the majority of the bullet hole. The box with the majority of the bullet hole will be recorded as having been shot.

8f First Shot error.

If the first shot on paper unintentionally hits a record box, the Range Officer must be informed before the second shot is fired. The Range Officer must visually check the target and make a note on target when same is recovered. No penalty will be incurred.

8g First Miss (FM):

All targets will be scored for FM. The Scorer will check the target box's starting with the #1 target box. First target box that is not a 10 will be recorded as FM.

If target box 1 through 25 are all 10's (250 Score) go to #1 target box and check X's. The first target box that is not an X will be recorded as FM.

If a tie still exists (250 25X), go to #1 target box and the first X that is not completely plugged out will be recorded as FM. (All FM recorded in the Target Score area and not in target boxes.)

8h Results Printout:

After all the results are recorded for a class a Preliminary Results will be printed. The scorer will then review this printout for any obvious errors and correct them. He will then review the printout looking for any ties the Scoring Program did not break. If any are found he will note it on the printout and also inform the Protest Committee that a Tie exists. Then they will be posted along with the Targets and labelled Preliminary Results.

8i Electronic Scoring:

Where electronic scoring is utilised, the match director will ensure the rules above will be used where appropriate or necessary, not withstanding any rights for protest, re-scoring manually, etc.

WORLD & EUROPEAN RIFLE & AIR RIFLE BENCHREST RULES 2013-2021

C. 9 Ties: Protest Committee Procedure.

C9a Target Ties: (Single Target)

Target Ties are broken by Score then X's thus First Miss. If a tie still exists then FM on X's will be used to break the Tie.

C9b Three Target Aggregate Ties:

In a match for one specific class ties will be broken by comparing the score on the first target - High Score wins and if a tie still exists then the second target score and if a tie still exists then the third target score to resolve the winner.

C9c Grand Aggregate Tie: (More than 3 Targets - Teams)

Should a tie exist in total score & X's, such ties will be broken by comparing the score on the first target of the highest scoring shooter (No1) - High Score wins and if a tie still exists then the second target score and if a tie still exists then the third target score etc. to resolve the winner. If a tie continues then the tie will move onto the second (No2) highest scoring shooter in the team and so forth.

Note: For Aggregate Tie Breaks the term "score" is Score & X's. If a tie still exists then the term "score" will include FM to break the tie.

C.10 Stationary Backers:

Stationary Backers are desirable but optional. Where they are used these will be located behind the target frames for all matches. These are required to be placed as follows; 3 feet/1m behind target frame.

In the case of cross-fires or indecisive targets, these shall not be removed from the frames until the matter is resolved by the Technical Staff. Any fair and appropriate method of using backers will be discussed before the match so all shooters understand their use.

C.11 Standard Range commands – First Match General Instructions:

Prior to each relay of the first match of the day, general instructions shall be announced by the Range Officer. They should be the same or similar to the following, acknowledging local requirements:

- *"During the match, should an emergency arise which requires an immediate ceasefire, I shall command*
- **"Emergency – cease fire – unlock your bolts"**
- *This will permit all rifles to be in a safe condition without extracting the case from the chamber. This command will only be given in cases of such emergency that we cannot permit you to clear your rifle by firing.*
- *If a condition should arise which requires temporary suspension of firing, I shall command*

WORLD & EUROPEAN RIFLE & AIR RIFLE BENCHREST RULES 2013-2021

- “Hold your fire – clear your rifle by firing or by removing your bolt/ **inserting breech flag**”
- **“Air Rifles should read open your firing mechanisms”**
- Do not place any ammunition in the action until the command “Commence Firing”

C.12 Standard Range Commands – Each Match:

To ensure the championship is conducted without confusion, the following range commands are to be used.

1) This is Relay n° XXX Match n°XXX Class XXX : Shooters Make Ready!

Competitors called to Benches **5 minutes** before start to set up rifle and rests, all rifles to be safe, either magazines removed or bolts depending on action.

2) Are Shooters Ready?

Competitors do have the facility to ask Range Officers additional time to set up (no more than three minutes) if they are experiencing trouble with equipment. Such facility will only be granted once time during a match.

3) Insert Bolt in Your Rifle/ **Remove Breech Flag!**

4) You have **20 minutes to complete this match: commence fire will be a whistle start**

NO Competitor to leave **the bench seating position** the line until Match completed. No competitor to enter the firing line once the Relay has started. They will forfeit that Relay if they are late. Any shots fired before **the whistle start**, will results in the shooter being disqualified from **the match**.

5) Remaining time will be announced at;

Ten Minutes

Five Minutes

Thirty seconds

6) Cease Fire will be a whistle stop. Remove bolts from Rifles/ insert Yellow Breech Flag and leave benches. Any shots fired after the whistle stop will result in the shooter being disqualified from the match.

All equipment to be removed from bench after guns are checked and put in custody or racks.

Interpretations

- No live ammunition may be placed in the rifle until the Commence Fire command is given.*
- Timing commences at the beginning of the word “commence”.*
- Timing ceases at the end of the blowing of the whistle.*
- Any shots fired before the command “Commence Fire” or after the “Blowing of the whistle” for ceasefire, will result in the shooter being disqualified from, and not taking part in the rest of the days shooting.*

C.13 Emergency Commands:

In the event of an emergency, the Range Officer will issue a “cease fire” command per C.8. Such command must be obeyed immediately and no further shots fired. Prior to recommencement of firing, the Range Officer will allow 5 minutes additional time and advise the shooters accordingly, however this allowance cannot exceed the original time for the match.

If match is stopped, three things will have to happen, all guns made safe, remove bolt / magazine/ **insert yellow safety breech flag**, etc and checked. **The match will be either abandoned or re-started.** If to be restarted no one leaves the Bench except competitor with the problem, an additional 5 minutes is added to the time remaining for re-setting up rests etc. **If abandoned then the Match will be re-scheduled after a break of 30 MINUTES minimum. Any shots fired after whistle stop will results in the shooter being disqualified.**

*Note - Voice commands are preferable over a whistle **for emergency commands.** However Range Officer to have a whistle in case a stop to the match is required - Cross fire or mechanical fault with a competitor, (or even stray animal, people wandering into range etc, etc.). This will permit all rifles to be in a safe condition without extracting the case from the chamber. This command will only be given in cases of such emergency that we cannot permit you to clear your rifle by firing.*

C.14 Protest Committee:

It is the responsibility of the Organising Committee to arrange a Protest Committee to hear any grievances raised by competitors in regard to any matters associated with the conduct of the championship.

C.15 Composition of Protest Committee:

The Protest Committee shall consist of the Championship Director, and four experienced Competitors (not from the host country) appointed from those entered. It is preferred that competitor appointees are changed daily for the period of the championship. Alternatively, the Organising Committee may appoint a Technical Committee of experienced individuals to act as the Protest Committee, who are not competitors and who have the ability to act independently of competing teams.

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

C.16 Lodging Protest:

All protests are to be lodged on the prescribed form (see Appendix Form A) together with a Protest Fee of **\$20US/€20** or equivalent local currency.

In the event of a successful protest, the fee will be refunded in full; otherwise all fees will be retained by the Organising Committee.

All Protests must be submitted within **15 minutes** of the alleged grievance, or posting of the result of the aggregate so disputed.

C.17 Decisions of Protest Committee:

The decisions of the Protest Committee are final and binding and there is no provision for appeal of such decisions.

C.18 Sportsmanship

There shall be no boisterous conduct on, or near, the firing line during the firing of any match. Everyone should treat all shooters as they would like to be treated if they were about to shoot a new record score. If competitors cause a disturbance a protest that may lead to disqualification may be applied. Competitors who have a grievance must ensure the Referee / Range Officer is aware. They will determine what course of action to take. Disturbance can be seen as:

a. Mobile phones going off. (No mobile phones are allowed on the range)

b. Moving from the firing line when shooting relay has not finished.

c. Conversations with people on the firing line or spectator area while people are shooting.

d. Cleaning of rifles.

e. Major adjustments of rifles.

f. Coaching shooters, in all its forms

g. No competitor should enter the firing points once the match has started. If they have missed the start of the match/ relay they forfeit that relay, as this will cause a disturbance to other shooters.

h. Major adjustments will not allowed, minor adjustments such as adjustments on the tuning device are allowed only from sitting position and rifle stays pointed in target direction.

This list is not exhaustive.

Competitors must remain seated until the end of each relay. No competitor should enter the firing points once the match has started. If they have missed the start of the relay they forfeit that relay, as this will cause a disturbance to other shooters. The above applies to spectators, who will be asked to keep noise to a minimum and if continued they will be asked to leave while shooting continues. Spectators will not be in the shooting area under any circumstances and must not engage in conversation with competitors on the line, whether they are shooting or not.

i. Alcohol and substance abuse is not tolerated in any sport. If a competitor is considered to be intoxicated in any way, they will be removed from the firing line and will be tested for intoxication. If proved positive they will be disqualified – see below. (PLEASE DO NOT DRINK BETWEEN MATCHES OR WHILE ON THE SHOOTING RANGE)

C.19 Disqualification

Where a competitor has been disqualified for a particular reason, this DQ will last for the day they are shooting a specific class in the championship. If they are a member of a team, that team will also be DQ'd by default. The person being DQ'd will be provided with a noted official warning to ensure further issues do not arise during a championship.

It is noted that a full DQ from the championship as a whole would be taken as a last resort, but the organising committee reserve the right to warn competitors of this action if issues persist during the event.

SECTION D Approved Events and Time Limits

D.1 Approved Events:

The approved events for conduct at the World Rimfire and Air Rifle Benchrest Shooting Championship are as detailed:

D.2 Mandatory Events (depending on entry numbers to events, below is a suggested itinerary only – the match director can outline the order of events with 25m first and 50m second, or what is suitable for the specific range where the championship takes place):

Day 1 LV Air Rifle Championship - 25m - Targets No 1 & 2

Day 2 LV and HV Air Rifle Championship - Target 3 of LV & Target 1 of HV

Day 3 HV Air Rifle Championship - Targets No 2 & 3

Day 4 Int. Sporter Rimfire Championship – 50m - Targets No 1 & 2

Day 5 Int. Sporter Rimfire Championship – 50m - Target 3 of Int. Sporter & Target 1 of LV

Day 6 LV Rimfire Championship – 50m - Targets No 2 & 3

Day 7 HV Rimfire Championship – 50m - Targets No 1 & 2

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

Day8 HV Rimfire Championship – 50m - Targets No 3

Note. Air Rifle in all circumstances Air Rifle will shoot first.

Classes must be contested in the following order:

First: International Sporter, Second; Light Varmint and Third; Heavy Varmint weight Class. A Practice Day should also be established within this event calendar for both Air Rifle and Rimfire (possibly after the air rifle events or even during the whole championship). Weigh in before the event starts.

D.2a Metric Alternative:

See Section A.9

D.2b Warm-up Match:

A warm-up match will be conducted on the first day of competition. If time is restrictive warm up or practice during the championship can be eliminated at the Match Director discretion.

D.3 Time Limits:

Score matches - the time limit will be 20 minutes. There shall be no exception to the requirement for all competitors to complete their string of fire within the time allowed.

D.4 Subsequent Relays:

Not more than 20 minutes shall be allowed between the end of one match of championship match and the start of the same relay in the next match. The Range Officer will call competitors to the line at least ten minutes before the commence fire command is to be given, in order to allow rests and other equipment to be set and adjusted.

Section E Technical Provisions:

E.1 Range Officers:

In the selection of technical and volunteer staff, special consideration must be given to the competence of Range Officers and their knowledge of these rules. It is preferable to seek well experienced individuals who have a known ability to conduct the matches in a manner compatible with the event. Particular emphasis should be placed on the ability to administer issues such as crossfire's, target system failures etc. **Each range officer or safety officer will use the Range Officer and Competitor Safety Guide.**

E.2 Squadding Procedures:

Allocation of positions on the firing line for the championship will be drawn by ballot, immediately following the Closing Date for final entries on the following basis:

Ballot will be for Teams spread evenly amongst available benches.

It will be for each Team Leader, at the time of final entry, to advise allocation of their team's individual shooting order. If no such advice is forthcoming, the Organising Committee will undertake allocation at their discretion.

In the event of competitors being nominated without involvement in a Team, each will be allocated any available benches or positions at the discretion of the Organising Committee.

E.3 Bench Rotation:

Bench rotation shall be mandatory. If necessary a drawing for bench assignments will be made before the first match of the day. Any fair and reasonable method shall be allowed. The rotation system to be used is to be advised to all countries at the time of seeking entries. Should a country wish to adopt a system not previously used at the World Rimfire and Air Rifle Benchrest Championship, consultation with the WRABF President must be undertaken so a consensus view can be sought.

It is preferred that the rotation over the six days of competition be consecutive i.e.: over the period of the championship shooters move across the full width of the range.

E.4 Relay:

Twelve (12) Relays of 20 minutes should be the maximum programmed for one day, to allow for orderly competition.

E.5 Unfinished Aggregates:

In the event that any aggregate is uncompleted on the scheduled day, the aggregate will continue the next morning where it was left off.

E.6 Results Service:

There is a need to provide a timely and accurate results service to the competitors. It is preferable that a computerised score programme be used to process the results to ensure an adequate style of presentation and accuracy. However a hard copy of all results is to be maintained in the event of computer failure. Scoring should be done in a private and secure area, restricted to official technical staff only. All targets marking should be conducted by at least two delegated Technical Officials, one to undertake primary marking using approved equipment. Target score to be displayed on the face of the target. A scoring plug is to be used at all official matches. Appointed by the Match Director to score targets, the Score Officer(s) must have approved scoring plugs for each calibre needed.

E.7 Results Posting:

Adequate notice boards are required to post results progressively during the competition. Such should be easily accessible both to competitors and the public. **No competitor or persons from the public**

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

are allowed to touch any target until 30 minutes at the end of the championship day has lapsed.

It should be clearly stated in the Championship instructions, where Official Results will be posted to ensure no confusion over protest requirements.

Aggregate results so posted shall have included on the results the exact time of posting and the time of the expiry of protest rights (15 minutes) **Championship scores and records will be recorded electronically on the appropriate websites; National, continental and the WRABF/ ERABSF websites.**

Note. The organisers of an event will appoint a scoring group for the final scoring of proposed new records. Such groups are able to meet in person or by correspondence. All targets that constitute the record shall be made available to the 'scoring group' by the shooters Team Captain. Independent scoring by WRABF/ ERABSF official scorers. The group(s) shall personally inspect and independently re-score each target, providing to the General Council and nominee the results of their efforts. It will be for the President of the WRABF/ ERABSF to announce any new records via appropriate websites. There shall be no appeal rights available as a result of scoring

E.8 Inspection Area:

It will be necessary to establish a facility for the implementation of inspection procedures to ensure firearms are in compliance with these rules.

The equipment to be used for inspection should be available at least two days prior to competition, to ensure individuals have an opportunity to test their equipment to ensure compliance with these rules.

E.8.1 Manpower Requirements:

Inspections should be carried out by staff that are fully familiar with the rules.

E.8.2 Documentation:

It is desirable that a standardised inspection form be used to provide consistency and be recognisable to range staff if further inquiry is required.

See Appendix E for suggested form.

E.8.3 Certification Sticker/s:

An Inspection / approved sticker, which are suitable for attachment to the rifle, are to be available.

These should be unique to each championship and retained under security.

E.8.4 Certification Equipment:

The following list is recommended.

- Rule (Tape Measure) or rifle size template.
- Gauge to measure stock width. The stock must not be more than 76.2mm (3") wide regardless of where measured for Light Varmint and Unlimited Class.
- Gauge to measure stock width. The bottom of the butt of stock, if flat, must be 25mm (0.98") maximum in width regardless of where measured for Light Varmint and Unlimited Class. The stock must not be more than 57.15 mm (2.25") wide regardless of where measured for all Sporter rifles.
- Calibrated Weighing Scales (preferably electronic) with a rated capacity of 10kgs.
- Chronograph to measure the effective energy of pellet in joule (ft/inch) for all Air Rifles.

E.8.5 Inspection Mandatory:

All competitors must present at the subscribed time, all rifles intended to be used in the Championship for inspection. Failure to do so will mean disqualification from that event.

E.8.6 Inspection Failure:

Rifles that fail inspection may be re-submitted for re-inspection following any adjustments, but prior to commencement of competition.

E.8.7 Weight Allowance for each class:

All guns are to be weighed before the match begins so no one will get a rude surprise if their equipment is found to be overweight. If a rifle is found to be overweight after a match is fired, the score must be reported as "DQ" (same as any other disqualification). We also recommend that the guns of all winners of prizes, be weighed. At the time of weighing, an additional allowance of **28g or 1 ounce** will be granted for possible inaccuracy / calibration of the scales. An Inspection/approved sticker, which are suitable for attachment to the rifle, are to be available. These should be unique to each championship and retained under security. An area for weighing and inspection should be available at the venue.

E.8.8 Random Inspection:

At the discretion of the Championship Director, shooters may be required to resubmit their rifle/s for re-inspection at any time during the Championship. The Director is not required to give advance notice of such inspections. **If Officer(s) verifies that any element of the equipment, already submitted to preliminary control, are altered or replaced, the competitor will be immediately disqualified for the whole match or, in specific cases, for the whole championship.**

E.8.9 Air Rifle Power Check Procedure

Air Rifle power will be checked before the match so there should be a suitable chronograph system available at each event.

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

Common JSB Exact pellets of all calibers (4.52, 5.0, 5.5 mm) for LV class and Heavy version of JSB Exact pellets for HV class to be used.

A sequence of 5 shot to be measured by a chronograph (averaged velocity of 5 shots). Minimum pressure in competitors air cylinders will be **190 bar** before the test can take place.

As current high quality chronographs state an accuracy level of 99.5%, a 0.5% +/- tolerance level will be allowed.

Kinetic energy (ft/lbs) = weight (grains) x speed (ft/sec) x speed (ft/sec)/

450240 or Energy (Joules)=weight (kilograms) x speed (m/sec) x speed (m/sec)/2

To verify the power of the 16.27 Joules (12 ft/lbs) or 27.12 Joules (20 ft/lbs) maximum Air Rifles must be tested by the following procedure:

- .177 JSB Exact Pellet of 4.50-4.52mm in diameter and 8.44 grain/ 0.547 gram in weight must be used for LV class = max velocity of 800 fps and energy of 12 ft lbs/ max velocity of 243.84m/s and energy of 16.27J
- .177 JSB Exact Pellet of 4.50-4.52mm in diameter and 10.34 grain/ 0.67 gram in weight must be used for HV class= max velocity of 933.2 fps and energy of 20 ft lbs/ max velocity of 284.44m/s and energy of 27.12 J
- .20 Match Pellet of 5.00mm in diameter and 13.73 grain/ 0.89g in weight must be used for LV class= max velocity of 627.30 fps and energy of 12 ft lbs/ max velocity of 191.2 m/s and energy of 16.27J
- .20 Match Pellet of 5.00mm in diameter and 13.73 grain/ 0.89g in weight must be used for HV class = max velocity of 809.84 fps and energy of 20 ft lbs/ max velocity of 246.84m/s and energy of 27.12J
- .22 Match Pellet of 5.52mm in diameter and 15.89 grain/1.03 in weight must be used for LV class= max velocity of 583.11 fps and energy of 12 ft lbs/ max velocity of 177.73 m/s and energy of 16.27J
- .22 Match Pellet of 5.52mm in diameter and 18.13 grain/1.175 gram in weight must be used for HV class= max velocity of 704.75 fps and energy of 20 ft lbs/ max velocity of 214.8 m/s and energy of 27.12J

If shooter does not want to test with standard test pellets, they can provide their own pellets. These pellets must be weighed (average weight for 10 pellets) and calculated for maximum energy.

However, for testing purposes only the pellets should not be lighter than:

- 8.44 grain/ 0.547 gram for LV class and 10.34 grain/ 0.67 gram for HV class for caliber 0.177;
- 13.73 grain/ 0.89 gram for caliber 0.20 (for all classes);
- 15.89 grain/ 1.03 gram for LV class and 18.13 grain/ 1.175 gram for HV class for caliber 0.22mm.

Caveat - If there is a consistent problem with testing using standard pellets above – due to poor light/ heat or another issue that may affect the chronograph/ or by nomination - the competitor can elect, with the match directors permission, to have the same test procedure (as noted above) but using their own pellets, working within the above rules. This procedure will take place after all other testing has taken place, or when available before the first match.

E.8.10 Rifle and/ or Equipment Conformity

In case of non conformity of rifles and equipment noticed by Weapons & Equipment Check Officer(s), competitors do have the possibility to replace it or adjust his / her rifle / equipment, but are only allowed up to 15 minutes before the start of the relay / match. Competitors can also forward a claim to have the said equipment/ rifle admitted by applying in writing to Championship Referees who will make a final decision. If this is not done in time for the start of the relay, the Range Officer has the right to admit the shooter with the purpose of not hampering or to slowing down the beginning of the competition. In this situation the Match Director will make a final decision at the end of the relay/match whether the equipment/ rifle is allowed under the rules. If this is not the case the rifle / equipment will be disallowed and the competitor disqualified for that relay / match. It is the responsibility of the competitor to ensure that all rules are understood and clarity is sought if they are not.

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

E.9 Scoring Error.

Where a competitor considers an obvious error has been made, a request can be made of the Target Marking Officials to view the target or result sheet and have the matter resolved. Where there is doubt, the competitor can submit a formal protest in accordance with the Protest Procedures.

E.10 Target re-score Procedure:

The Official Scorer will re-score the disputed target in the presence of the second Official and the Team Leader of the Competitor concerned using the same equipment as originally used.

E.11 Removal of Bolts:

All rifle bolts must be kept out of all rifles, except on the command of the Range Officer. Rifle that are unable / do not have bolts to be removed, must have inserted into the chamber **Yellow breech flag** that visibly shows that the chamber is empty. This provision includes behind the firing line and in all other range areas including Competitor Facilities, Parking areas etc. Breach of this rule could lead to disqualification from the championship at the discretion of the Championship Director.

E.12 Cross fire procedures:

It is the responsibility of the shooter who cross-fires to immediately advise the Range Officer of such an event, and then fire the balance of their shots on their own target. A shooter who cross-fires and does not notify the range officer, will have been deemed to have inadvertently cross-fired and shall not be disqualified, but shall be penalised as per E.12.2. Only the required number of shots are counted on the cross firer's own record target plus the penalty for each cross-fired shot.

E12.1 Cross-fire transfer:

A notified cross-fire will be transferred to the correct target and included in the match score with a penalty of 5 points.

E12.2 Cross-fire Penalty:

Target diagrams of the cross-firing shooter will be penalised 5 points for each cross fired shot. (5 points per crossed fired shot). If the cross-fired shot cannot be identified (2 shots on target) the innocent party will be awarded the highest scoring shot registered on their target.

E12.3 Innocent Party:

The competitor, on whose target a cross fire has been placed, is obliged to advise the Range Officer of such a happening.

E12.4 Failure to Notify:

Any shooter found to have cross-fired, and not notified the Range Officer, and whose target shows more than the required number of shots, with the inclusion of cross-fires to another target, shall be deemed to have tried to conceal the fact and shall be disqualified from the event.

E12.5. Nomination to re-shoot:

The innocent part can nominate to re shoot the same bull after the range officer has inspected the cross fired shot or may elect to shoot a nearby sighter as a recorded bull again. Advice must be given to range officer so they can notarise this.

E.13 Wind flags:

Wind flags can be utilised that are present at the venue and competitors can bring their own. Flags must be no higher than level of bench top to bottom of target. Organisers must place enough wind flags in position before match begins. **It may be possible for wind flags to be moved or taken down after each relay (target) is completed, depending on the nature of the range where the championship is taking place – if so time will need to be allocated for this during each days match's.** Bench rotation will need to be considered to facilitate this process. If a flag is in a shooter's line of sight, the Range Officer / Referee will lay the flag on the ground. This must be done before match commences. For clarity moving flags is under the control of the Range Officer and may not interfere with the orderly conduct of the match. **The use of electronics in all forms is strictly prohibited in all rifle classes and this includes electronic wind flags.**

E.14 Rifle fault during the match

A change of rifle is permitted during the competition if there is a proven fault with a rifle, especially when this relates to safety and it is considered dangerous. In this case the competitor will ask the Range Officer to view the rifle and possibly replace it with a new one. The Range Officer may authorise the change of weapon with a rifle of the same class, after which the faulty rifle will be dispatched for inspection by Weapons & Equipment Check Officer(s). **(The Range Officer will need to decide if the match can continue or needs to be stopped depending on the how serious the fault is and if changing rifle will infringe on the shooters who are continuing with the match).** No extra time will be allowed for competitors when this situation occurs and they will not be allowed to re-shoot the relay. If inspection confirms the fault then, after the end of the relay, the shooter will keep the score achieved with the new rifle. **If the fault is manufactured by the competitor to gain advantage, or the responsibility of the competitor due to negligence, an automatic DQ from the match will be applied.**

SECTION F Range and Facilities 25 Metres / 50 Metres

F.1 Minimum Range facilities for conducting a World or European Rimfire and Air Rifle Championship Tournament:

WORLD & EUROPEAN RIFIRE & AIR RIFLE BENCHREST RULES 2013-2021

- The firing line shall consist of not less than FORTY(40) benches/tables.
- There shall be sturdy target frames at both 25m and 50 m.
- There shall be adequate covered area for all competitors to protect the competitors from direct sun and rainfall and spacing to allow adequate comfort both right and left-handed shooters. Covered shooting area does not constitute an indoor range if targets are still in open air.
- 50 metre Rimfire and 25 metre Air Rifle matches will only be undertaken outdoors.
- There shall be enclosed facilities for statistical personnel.
- There shall be adequate covered area for display of completed targets.
- There shall be adequate sanitary facilities for competitors (Male, Disabled and Female), technical staff and spectators, with provision for disabled participants.

F.2 Range Inspection and Certification:

It will be the responsibility of the host association to ensure that the range and facilities are of a standard suitable for the conduct of the Championship and have appropriate insurance.

It will be for the host country's International Delegate to provide assurance to the Delegates Committee that these requirements have been met.

In the event of doubt or concern, it will be for the Delegates Committee and / or President to appoint a suitable person to undertake a pre-championship inspection to ensure all standards are being met.

F.3 Range – Benches:

The range must be equipped with adequate benches to cope with the numbers expected at the Championship. No international standards have been developed on size, spacing etc however the Delegates Committee needs to be satisfied fair and equal competition will be offered. Benches must be covered by roofing to protect the competitors from direct sun and rainfall/

F.4 Minimum Competitors:

There must be a minimum of thirty competitors for a European or World Championships, representing at least five countries, with a minimum of one individual competitor representing each country. For a country to place a team in the competition they must have at least three competitors.

F.5 Maximum Competitors:

Each country can enter an open amount of competitors for each event/match in the Championship, including juniors – this however depends on the allocation of places the country is provided by the Match Director/ Organising Committee. (To clarify, at some competitions a country may be allocated 6 places, at another they may be allocated 9 or more. This will depend on the amount of benches available and the number of other countries attending).

F.6 Teams:

There must be a minimum of **two countries** with teams entered into a match for a team result to be shown, with at least three teams entered from those two countries. Each country can enter up to three teams of three in each match/ class.

F.7 Relays:

All competitors on each relay, if possible, must be contesting the same class. If time is restrictive and numbers in classes are low, then mixed classes on each relay can be organised at the Match Directors discretion.

Note: 12 (Twelve) relays per day will be the maximum programmed to allow for orderly and fair competition. **Two targets will be shot by each competitor in one day for each allowed Class** in bench rotation, the aggregate being the score submitted and that will form the basis of a "World Ranking" within the Sport.

Main events must have: car park inside for visitors with campers and cars with range emergency access; possibility to store rifles and equipment in a protected area during the competition; separate area for Scorer and Technical Officers; adequate covered area for display of completed targets and finally a covered separate area for rest and relaxation of Competitors.

It will be the responsibility of Organisers to ensure that the host range and facilities are of a standard suitable for the conduct of the match/championship. The WRABF/ ERABSF will appoint a suitable person to undertake a pre-championship inspection to ensure all standards are being met.

F.9 Toilet Facilities:

The provision of both male and female toilets is required at all sites within reasonable walking distances of the range facilities with provision for disabled athletes.

SECTION G Ceremony, Meetings and Medal Distribution

G.1 Medal Ceremonies.

It is for the organising committee to arrange the style and venue for medal ceremonies to suit their own facilities. These will be held at the end of each day for the specific Class contended on that day.

G.2 Opening Ceremony.

An opening ceremony is an excellent opportunity to promote the sport in front of invited guests, and equally sets the stage for competition. It is suggested that early consideration be given to a list of guest speakers who are important to the sport. Politicians, City Officials etc. often need to be booked several months in advance.

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

It is normal practise, that such an event would be staged on the opening morning of the competition however alternative options could be explored. The style and content of the ceremony is at the discretion of the host association. A Competitors pin will be given out to each participant at the end of the opening ceremony.

G.3 Closing Ceremony.

The style and format of a closing ceremony / function should also be considered.

It is generally recognised that a semi-formal function should be arranged.

It is recommended that during this function, the teams from each country should be presented to the function as an acknowledgment of their participation.

G.4 Other Functions

Any additional functions are at the discretion of the Organising Committee.

G.5 Meetings

Meetings are required as follows:

Technical Meeting: This to be held at the range, if a suitable venue is available, at least 24 hours before the commencement of competition. There will be a technical meeting for both AIR RIFLE and RIMFIRE, before the separate matches begin.

The purpose of the meeting is to ensure critical staff and Team Officials are briefed on final arrangements for the Championship, and to deal with any particular concerns.

The following are required to attend:

All Delegation Leaders and Interpreters as required.

All Technical Staff.

Other Team Officials/Coaches – optional.

See Appendix F for Agenda.

(Note: *This meeting is not designed for competitors.*)

WRABF/ ERABSF General Meeting:

This meeting is usually held about midway through the Championship. This should be planned to be away from the range at an easily accessible venue. (Team Accommodation or similar).

This should not be planned to commence before 7.30pm.

G.6 Medal Distribution:

The following list of medals/Awards is to be presented at each Championship for each class.

Senior Individual to the top three in each class / event - **Gold, Silver, Bronze. (15 medals)**

Teams to the top three teams in each class / event - **Gold, Silver, Bronze. (45 medals)**

If there are sufficient junior competitors the following would also apply;

Juniors Individual to the top three in each class / event-Gold, Silver, Bronze. ***Subject to minimum of three entrants in each class applicable.***

This does not block junior shooters from winning medals in the senior individual section or from being members of teams. If this occurs they may get two medals. However, this is at the discretion of the Championship Organisers / Match Director. If there are insufficient 'Junior' entrants to enable to medal place, entrants will be combined into a Senior overall Individual Award.

G.7 Awards:

Grand Aggregate Individual Championship based two gun aggregates – air LV and HV

Grand Aggregate Individual Championship based two gun aggregates – rimfire LV and HV

Grand Aggregate Individual Championship based three gun aggregates - rimfire Int.Sp, LV and HV

G.8 Discretionary Awards

- At the discretion of the Organising Committee, the provision of **Top 10/20 Patches may be awarded.**

- **250** pins will be awarded for those scoring 250 on a target in air rifle 25m and rimfire 50m.

Awards are also suggested for:

- Junior prizes and adult prizes as specified by the Executive Committee.

G9 Participation Award

The Organising Committee should provide a suitable medal or patch to all registered competitors as an acknowledgment of participation. **Participation certificates may also be provided for all people who complete the championship.**

Championship patches, T shirts or other merchandise can be offered to participants on a purchase basis – funds will go to WRABF/ERABSF and/or the host of the championship.

WORLD & EUROPEAN RIFLE & AIR RIFLE BENCHREST RULES 2013-2021

Section H Entry Fees and Registration

Registration

Match / relays will commence at the designated times set out in the programme of events which will be circulated to all competitors upon registration. Registration will close before the event commences.

Countries will register required places first. Initial competitor registration forms are to be filled out and signed by each competitor and submitted by their national organisation for both individuals and Teams. The final registration will have a set deadline before the event to ensure clarity. Names of competitors can change, but no further entries will be made after the close of registration. Fee payments are to be made no later than one day before the championships / match commences. It is the responsibility of the national organisations to ensure registration fee payments are made in full on or before the due date on behalf of all shooters from that Organisation. Payment will only be accepted from individuals in exceptional circumstances. All Competitors to sign in with Name, Class, Gun, Calibre and Licence Number.

An individual 'Pin' number will be issued that will be placed on each target. Competitors are responsible for ensuring they know the number of the target they are using.

H.1 Entry Fees:

It is the responsibility of the Organising Committee to publish at least 12 months in advance the level of **reasonable** entry fees to be charged. **International delegates must agree on costs.**

H.2 Responsibility for Payment of Entry Fees:

It is the responsibility of the recognised organisations to make entry fee payment in full before the due date on behalf of all shooters from that Organisation. Payment will not be accepted from individuals. Individual registration is payable per class entered. Team registration is free.

H.3 Practice Fees:

Costs for Official Practice Days are to be included in the entry fees for each championship event. Unofficial practice costs can be charged separately at the discretion of the Organising Committee. All practise fee arrangements are to be advised in the entry information.

H.4 Late Entries:

The acceptance of late entries is at the discretion of the Organising Committee.

The acceptance of same must not disadvantage those countries that have met the entry deadlines.

The Organising Committee is authorised to charge a penalty rate for late entries.

Section I Range Safety and Procedures

Safety of Competitors, Officials and Spectators is considered paramount. It is the responsibility of all participants to ensure that all safety standards are complied with, and breaches will not be tolerated. The Match Director, Range Officer or WRABF Officials will be responsible to see that appropriate safety precautions are taken. It is expected that the Match Director and all competitors will exercise their best judgment to keep our sport safe for all that participate. The Range Officer to go over basic safety rules if appropriate before a match if there is any question that anyone in attendance may not be familiar with the rules in effect at that range. Team Leaders / Team Captains even if they do not compete have a responsibility to ensure all participants comply with this requirement. **Please see Sportmanship rule C18i about intoxication and substance abuse on the shooting range.**

I.1 Range Officer:

It is the responsibility of the Range Officer/s to supervise all matches and enforce all safety rules. Refusal to comply with an order of the Range Officer shall be grounds for barring a competitor from the range. **Disqualification may result if these procedures are not followed.**

I.2 Standard set of commands:

Range Rules at each facility may vary from country to country. It is the responsibility of the Organising Committee of each Championship to ensure any individual requirements that may apply are advised to participants. However as a minimum, a standard set of commands are provided (see C11 and C12)

I.3 Public Areas:

It is the responsibility of each individual shooter to ensure movement around public areas with firearms, is conducted in a safe and appropriate manner. Team Leaders have a responsibility to ensure all participants comply with this requirement. **All rifles must be in a bag or case.**

I.4 Recognised safety rules will apply:

4a All Rifles, having a safe manually and mechanically operated firing mechanism, must be equipped with trigger guards.

4b Firearm movement around public area has to happen in a closed custody. This provision includes behind the firing line and the other common range areas like competitor facilities, parking areas etc.

4c Rifles are NEVER to be on the bench until the Match Director calls the relay to the line after determining that the range is secure. When anyone is down range, NO RIFLES will be allowed on benches.

4d At all times at the range all rifle bolts must be kept out of all rifles, except on the command of the Match Director. Rifles that are unable / do not have bolts to be removed, must have a device inserted

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

into the chamber that visibly shows that the chamber is empty. (Bolt can be inserted or flag stop-bolt removed only following the command "Insert Bolt in Your Rifle!" by the Match Director.)

4e Under no circumstances will a shooter load a round into a rifle before "LOAD" command.

4f Firearms and equipment cannot be removed from the bench before the term of the match, authorization excepted by Match Director. The shooter that has to abandon the bench during the competition, even if momentarily, must have been cleared only by the Match Director, and leave weapon on the rest deprived of the bolt or with the **yellow breech flag inserted**. **At the end of a relay the competitor must declare his/her rifle safe to the range officer and show his/her rifle bolt.**

Section J Competitor Requirements:

J.1 Official Language:

The official language of the Championship shall be English, and all commands and instructions shall be provided in that language.

J.2 Competitor Number:

Each competitor shall be provided with an individual competitor number and country identification, suitable for attachment to competition clothing. Such Identification must be worn and visible at all times the competitor is at the firing line.

J.3 Name Tag:

Each competitor should be provided with a name tag including Name and Country and can be used for identification purpose on the range and at functions.

J.4 Official Notice Board:

The Organising Committee will establish an official notice Board and its location advised to competitors and officials. All official communications must be posted on this board to ensure all participants are equally informed.

J.5 Disabled Competitors:

The WRABF and ERABSF positively supports the participation of disabled shooters in their championships. No specific limitations are mandated; however organising committees must be mindful of access and toilet requirements. Should a participant require special dispensations due to physical disabilities, application should be made in writing to the President or nominee in sufficient time for a determination to be made.

Section K Officials and Duties

General

Any person may hold more than one Tournament Official position. When possible, it is suggested that matches be scheduled such that persons holding the Official positions may also be able to compete in the matches. Main rules apply to Official / Range Officers etc. Officials to be as follows: Match Director; Range Officer; Weapons & Equipment Check Officer; Score Officer and Referees.

Definition and Duties

K.1 Match / Championship Director:

Is the manager delegated to setup the competition, sending programs and invitation forms to participants. He can nominate collaborators and supervisors where there is a specific requirement for logistic, safety and range facilities. He is responsible to every other organisational aspect of the championship / match.

K.2 Firearm & Equipment Check Officer(s):

Appointed by Match / Championship Director to weigh rifles, check that all equipment and accessories conform to the rules. A check pass / conformity sticker will be applied to every rifle, scope and piece of equipment.

K.3 Score Officer(s):

Appointed by Match / Championship Director to score targets and be responsible for compilation and classifications of all scores. Score Officer must have full knowledge of the rules and have a good level of experience in championship events. He, in the case of score doubt, can nominate two referees under Match Director approval. Scorer must have an ISSF / NRA approved scoring plug provided by the club. Scorer and referees cannot be competitors at the match.

K.4 Range Officer:

Person in charge of the Match, responsible for monitoring and timing each relay. He is the only person authorised to pronounce the range commands. The range Officer is the first liaison between match director / officials and shooters. He must check safety and all relevant range conditions before start of the relay. Every competitor will refer to him for every issue, protest or problem on the firing line during or after each match up to a maximum of 30 minutes after the relay / match has finished.

K.5 Referees:

Persons who will decide problems in crossfire, help with protests in scoring, eligibility of guns and rests, and may help with any other protests that may arise. Referees at any time before the

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

'commence to fire' and after cease fire may inspect and weigh guns, or inspect rest or scope to determine if shooter is in compliance with rules. Referees must weigh at least the first three winning guns in each class. Referees may weigh again any other rifles. Referees may help the 'Protest Delegates/ Committee' decide outcome of any protests lodged by competitors before, during, and after match. Referees must check all variable scopes in Sporter Class are taped (or if this is removed / altered) before 'commence to fire'. An alternate referee should be named in case one of the three referees has filed a protest or is involved in a protest. Match Director cannot be a referee, but can act as a 'vote' in a matter of protest. Referee cannot be scorer.

K.6 Air Rifle filling station

The hosts must ensure that adequate safe facilities be available at the Range as to enable competitors to fill the air rifles to the required capacity - 16.27 Joules (12 ft/lbs), 20.34 Joule (15 ft/lb). 200 and 300 bar filling facilities must be available at the event.

WORLD & EUROPEAN RIMFIRE & AIR RIFLE BENCHREST RULES 2013-2021

APPENDIX E –Targets

Targets

The targets used in all competitions will be the Official rimfire and air rifle targets as supplied. These Targets consist of twenty-five (25) record bulls and sighter bulls with best edge (inward) scoring. All targets will be scored with a specific gauge to match the calibre of the rifle used, i.e.22. Any number of shots may be fired into the sighter bulls to the left and the right of the **record targets**. **All shots touch or enter record diagram boxes – HIGHLIGHTED IN RED BELOW - will be counted.** If the first shot impacts in the record area, the competitor must immediately notify the Range Officer (before firing another shot) who will inspect the target and make note that the shot will not be counted. This will only be allowed on one occasion during a match – first shot error. **Should more than one shot appear on a scoring target, only the lowest score will be counted. At the end of the competition, where the impacts on the scoring target are more than 25, a penalty of 1 point will be assigned for every shot in excess in comparison to the allowed number.**

These targets are registered and copyrighted for the use of the WRABF and the ERABSF, which include all member associations. In all other circumstances targets can only be utilised by prior agreement with the federations.

There are different targets for the 25 metre and 50 metre matches. Sizes here are average printed sizes depending on paper and facilities used – original CAD drawing sizes are smaller.

The 25 metre target diagram specifications are noted below, with 25 fitted onto A3 paper.

On 25 metre targets the six ring is black to aid sighting, all other rings are white with black-line borders. The central 10 ring is 2 mm in diameter; this is to be obliterated to score a 10X.

Dia.	MM	In
10 Ring	2.000	0.07874
9 Ring	8.000	0.31495
8 Ring	14.000	0.55118
7 Ring	22.000	0.86614
6 Ring	30.000	1.18110
5 Ring	39.000	1.53542

The 50 metre target diagram specifications are noted below, with 25 fitted onto A3 paper.

On 50 metre targets the 6 and 5 ring are black to aid in sighting, all other rings are white with black line borders. The central X ring is 0.792 mm in diameter; this is to be touched to score a 10X.

Dia.	MM	In
10 X	0.792	0.0312
10Ring	6.350	0.2500
9 Ring	12.700	0.5000
8 Ring	19.050	0.7500
7 Ring	25.400	1.0000
6 Ring	31.750	1.2500
5 Ring	38.100	1.5000

One set of targets per match shall be provided per competitor, these to be clearly marked with a “Competitor Number or PIN” and relay number that is clearly visible at all ranges.

World Championship Targets to be printed on 160 gsm (grams per square metre) paper minimum and placed only in the horizontal position. Request for the target to be placed portrait or landscape depending on the shooters specification can be applied, if such a request is made well before the match begins.

APPENDIX F

Stocks Clarification

International Sporter Class. The action may be glued into the stock. Stock must be 57.15 mm (2.25") or under at its widest point. No stock tape allowed. For-end and butt of stock that comes in contact with front and rear sandbags **can be flat OR convex.**

10.5lb Light Varmint and Heavy Varmint Weight Classes (Including Air Rifles), the forearm of stock must be either convex or flat, maximum 76.2mm (3") or under at its widest point, this can be a specialist stock or via a flat plate attached to the bottom of the stock, any material can be used. The bottom of the butt of the stock that comes in contact with rear sandbag must be either convex or flat. If flat the bottom of the butt of stock must be 25mm (0.98") or under in width.

It is the responsibility of the individual competitor to check they abide by these specifications.

APPENDIX G

Clarification on latest design of front rests

Development of Benchrest equipment especially front rests is still being carried out by the main manufacturers. The front rest sand bag is a prime example. The latest development is the fixed bag produced by Sinclair International, Varide Cicognani, Bald Eagle, Fudd and Midway. This latest bag is acceptable under these rules for all competitions. The following are examples of such bags.

Varide Cicognani

Sinclair International

Midway (Caldwell)

The 'pressure gauge' forming part of the front rest is also a new development, this attachment however will **not be allowed in competitions** and will not have to be removed before that rest can be used. This list is not exhaustive – competitors are responsible for ensuring they abide by the rules laid here.

APPENDIX H

TECHNICAL MEETING AGENDA

TECHNICAL MEETING - elements of this agenda may be placed on official notice boards as confirmation memo's

Technical Meeting: This to be held at the championship range at least 24 hours before the commencement of a competition/ match. The purpose of the meeting is to ensure staff and Team Officials are briefed on final arrangements for the Championship, and to deal with any particular concerns.

The following are required to attend:

All Delegation Leaders and Interpreters as required.

OFFICIAL WELCOME

- Item 1 Welcome to delegates
- Item 2 Introduction of senior operating personnel.
- Item 3 Introduction any new countries

CHAMPIONSHIP SECRETARY

- Item 1 Advice on Operations Office and hours attended.
- Item 2 Confirmation of official Information Board of Organising Committee for posting of notices, results etc.
- Item 3 Marketing souvenirs etc.
- Item 4 Photographer arrangements.
- Item 5 Opening and Closing Ceremonies (and Official / informal functions)
- Item 6 Medal Ceremonies and Medal Distribution
- Item 7 Official / informal functions,
- Item 8 Practise arrangements.

CHAMPIONSHIP MANAGER

- Item 1 Advice on Equipment Control arrangements and times.
- Item 2 Confirmation of programme of events
- Item 3 Confirmation on start times.
- Item 4 Confirmation of bench allocation and rotation.
- Item 5 Confirmation of target posting and result distribution.
- Item 6 Confirmation of protest procedures and fees.
- Item 7 Confirmation of Protest Committee
- Item 8 Reminder – Crossfire Procedures
- Item 9 Armoury arrangements and/or range security.
- Item 10 Range parking.
- Item 11 Other range information.
